Profile

Dedicated Computer Science undergraduate passionate about Artificial Intelligence, Machine Learning, Robotics, and Web Development. Interested in building intelligent systems and solving real-world problems through practical, hands-on projects.

Education

BS Computer Science — CECOS University of IT and Emerging Sciences, Peshawar Current

- FSc (Pre-Engineering): 964/1100
- Matriculation: 1014/1100

Technical Skills

Programming Languages: C++, Java, JavaScript
Web Technologies: HTML, CSS
Databases: SQL, MongoDB, Oracle SQL
Tools & Platforms: Git/GitHub, VS Code, Android Studio

Projects

AI Smart Security & Surveillance System

- Built an AI-powered surveillance system using computer vision techniques to detect events and trigger intelligent alerts in real time.

AI Portfolio Website

- Designed and developed a responsive personal portfolio website using HTML, CSS, and JavaScript.

Student Attendance Management System

- Developed a SQL-based system to record, manage, and track student attendance efficiently.

Full-Stack E-Commerce Store

- Built a complete online shopping platform with product catalog, cart, and checkout flow, backed by a connected database for products, users, and orders.

Interests

Artificial Intelligence • Machine Learning • Robotics • Computer Vision • Web Development
